

Test Results

Since our telephones are very busy in the early morning, we ask you to telephone for test results (e.g. blood, urine, X-ray) after 11:00am each day.

To ensure confidentiality, we only release results to the patient, unless alternative arrangements have been agreed in writing.

Most results take 5 to 7 working days to come back, however some may take longer.

It is your responsibility to check your results and to make an appointment to discuss them with your doctor if you are advised to do so. The practice does not routinely telephone patients with their results unless urgent action is required.

You can also view your test results online via the NHS App.
